

# Hose & Cable Tidy

Hoses & cables that are left untidy in a workplace, can cause serious tripping hazards and lead to injury. The hose & cable tidy is ideal for keeping all types of hoses & cables tidy, resulting in a safer environment for all employees.

- Tidy storage of shutdown hose and cable runs – preventing trip hazards.
- Secure tight fit over scaffold poles and handrails – preventing inadvertent removal or being blown/knocked off.
- Soft rubber coating over metallic core – preventing potential sparks or damage to plant and personnel if dropped.
- Soft rubber tongue – allowing easy loading/unloading of cables/hoses and securing in place whilst in use.
- Tagging Ring - for identification purposes when laying out hoses and cables.
- SWL tested to 50KG's – SHOULD NOT BE USED AS LIFTING HOOK.
